

Age of Collection

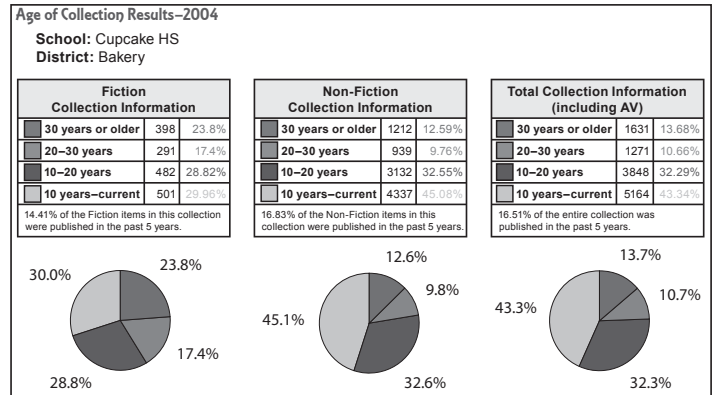

How old is your collection? How does it compare with other schools in your district? With the state average? SUNLINK can help you find out the number of items in your school media collection with publication dates that are 30, 20, or 10 years old as well as those with copyright dates less than 10 years old. Follow the following steps to make your bibliography:

- Go to the **Media Specialists** page
- Go to the **Age of Collection**
- Find the age of any SUNLINK library media collection

Search by school name, keyword, and/or district to find the number of books with publication dates 30, 20, or 10 years older as well as dates that are less than 10 years old.

- Click on your school name
- The pie graphs show your fiction and non-fiction age as well as the total collection (print and nonprint). Click on the link to compare this year's results with last year's numbers.

- Search and compare with other schools in your district
- Compare with other districts, as well as the state averages.
